Immersive Meeting Experiences Anywhere

Heckler Stand for Neat Board Pro
H1082

Heckler

The Heckler Stand for Neat Board Pro delivers a refined, ultra-stable, and highly mobile foundation tailored to Neat's advanced collaboration technology. Designed and manufactured in Phoenix, Arizona, this stand is built from commercial-grade steel for exceptional rigidity during touch interactions, while smooth-rolling casters make it easy to reposition throughout your workspace, and the stand is certified to UL/IEC 62368-1 ed.3 2018 to meet rigorous safety and reliability standards. With thoughtful cable management and an intuitive assembly process, the stand ensures a clean, professional appearance and fast deployment in any environment.

As a TAA-compliant solution, the Heckler Stand provides government, education, and enterprise organizations with secure sourcing and dependable domestic production. Its design pairs seamlessly with Neat Board Pro's cutting-edge audiovisual and AI-driven capabilities—supporting high-performance cameras, far-field microphones, and immersive 4K touch experiences. For modern teams transitioning between rooms, activities, and hybrid workflows, this stand brings flexibility, durability, and exceptional design together to maximize the power of Neat Board Pro.

Heckler
