Heckler

Heckler Express Install Rolling Stand is designed to align perfectly with Microsoft's Express Install initiative. This special rolling stand enables rapid, scalable deployment of Microsoft Teams Rooms. Whether you're outfitting a single collaboration space or rolling out hundreds across the globe, this stand simplifies setup with thoughtful engineering that supports plug-and-play functionality—without construction, special trades, or complex logistics.

By simply swapping any office chair for this compact rolling stand, any small meeting space becomes Teams-enabled.

Heckler Express Install Rolling Stand features a small, maneuverable base designed for ultimate work space flexibility—effortlessly rolling into place in even the most compact rooms. Its ample device panel supports your display and video bar with purpose-built mounting. A convenient grab & go shelf places Logitech Tap or Tap IP right where it's needed. Inside, a spacious storage area neatly organizes your mini-PC, power adapters, power strip, and networking gear. The sleek felt cover, available in 42 designer colors with optional logo customization, adds professional polish while remaining RF-transparent and providing acoustic dampening of components.

Heckler

Features

Deploys a Microsoft Teams Room in under an hour.

Tool-free assembly.

Compatible with Logitech Teams Devices: Rally Bar Mini, Rally Bar Huddle, MeetUp 2, Logitech Tap & Tap IP.

Compatible with most 43-inch, 50-inch, and 55-inch displays.

Compatible with VESA 100, VESA 200, and VESA 300 displays.

Universal camera-mounting hole pattern compatible with wall mounts from all popular video bar brands.

Heckler

Features

Ample field of Heckler Grid for cable management and mounting of Mini PC, power adapters, networking switch, PoE injector, and power strip.

Everything mounts cleanly with included thumbscrews and Velcro—no tools needed.

Large 4-inch dual wheel casters with total-lock braking.

RF-transparent Felt Right panel in 42 colors.
Optional custom logo printing.

ADA, ACA, and TAA compliant.

Compact shipping (up to 20 units per pallet).

M6 and M8 display-mounting hardware included.

Made in Phoenix, Arizona.
