Smart Component Mounting for Lecture Halls

Classroom Credenza
H732

Heckler

To create an excellent audio visual experience in-classroom and via distance learning requires a significant amount of hardware. Quickly deploying this hardware to hundreds of classrooms is an immense challenge. Heckler Classroom Credenza dramatically reduces the complexities of deployment by enabling hardware pre-configuration in a central location, then rapid mass deployment.

Features

Outer aluminum panel with scratch-resistant and fingerprint-resistant powdercoat finish.

Four rack-units of component storage on each side with 10-32 threaded mounting holes.

Open rear surface for easy access to pre-existing power outlets and data ports.

Lifting handles enable fast mounting of pre-configured credenza.

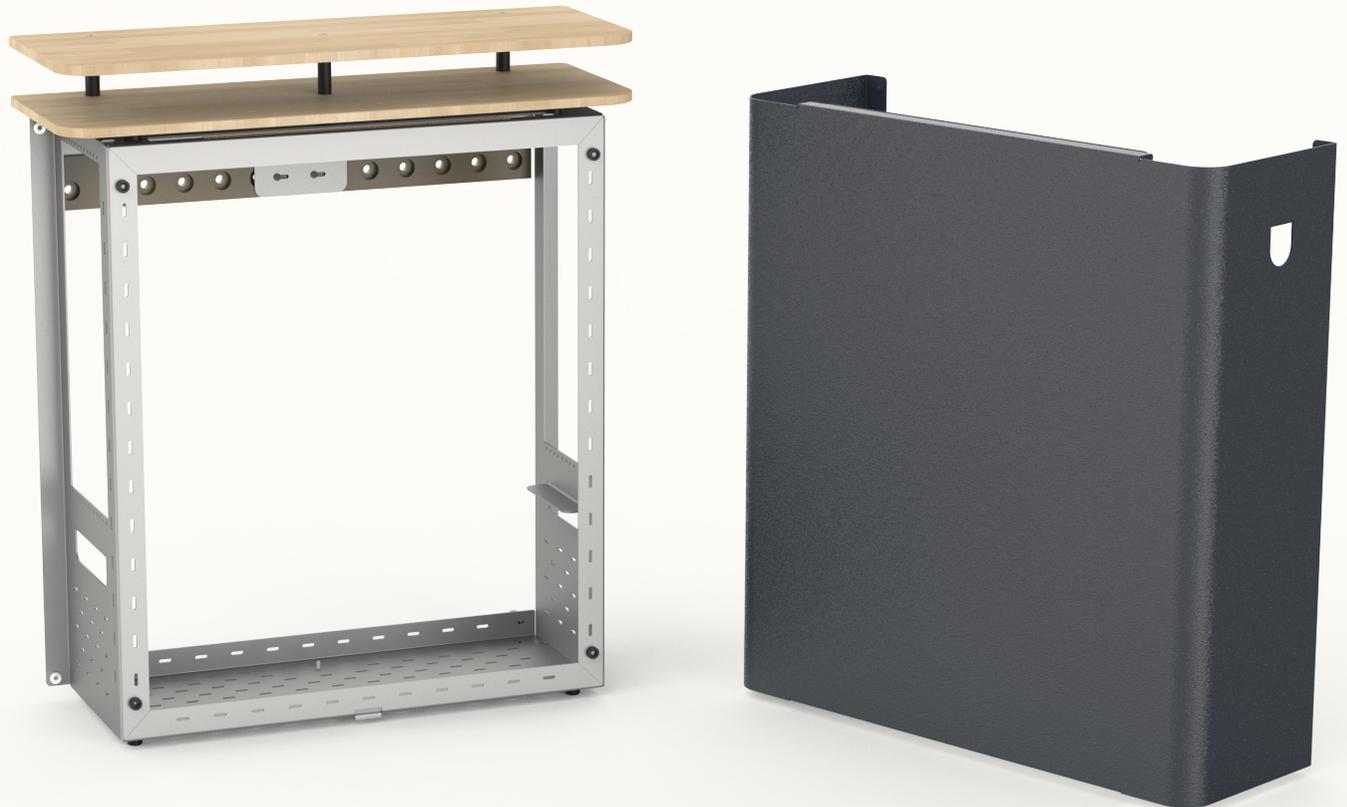

Standing-height shelf for classroom control screen and lecturer's notebook.

Lower shelf for additional storage and media player.

Strap small devices, power adapters, and extra cabling to the bottom surface.

Simple wall mounting with included French cleat.

ADA compliant.
