

Heckler

Smart Component Mounting for Lecture Halls

Classroom Credenza Mk II
H780

Heckler

Delivering an exceptional audio-visual experience for both in-class and distance learning demands a substantial amount of hardware. Deploying this hardware across hundreds of classrooms quickly can be a daunting task. The Heckler Classroom Credenza Mk II simplifies this process by allowing hardware to be pre-configured at a central location, enabling swift and efficient mass deployment.

Features

Rigid aluminum and steel construction.

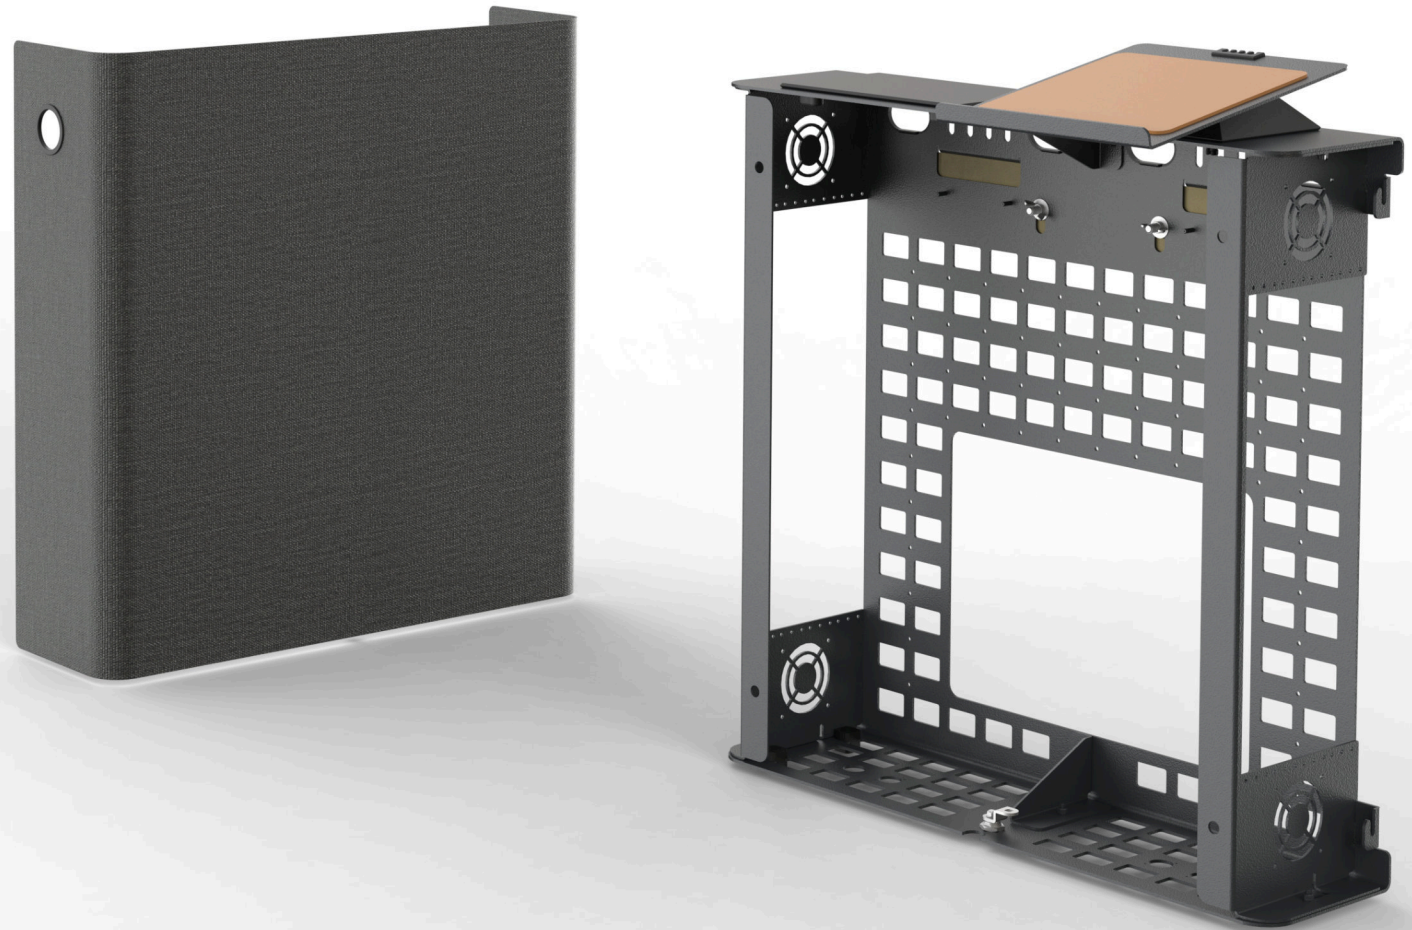

Four rack-units of component storage on each side with 10-32 threaded mounting holes.

Back wall features ample wall outlet access and Heckler Grid pattern for strapping small components and cable management.

Top surface features two Heckler console inserts - our modular, future-proofing system for integrating mic chargers, touch controllers, and more.

The bottom surface features four D-style mounting positions and Heckler Grid pattern for mounting small devices and extra cables.

Simple wall installation via the included French cleat.

Heckler

Features

Four 80mm fan mount locations to enhance your build with active airflow.

Pre-configure your gear off-site, or install your gear on-site.

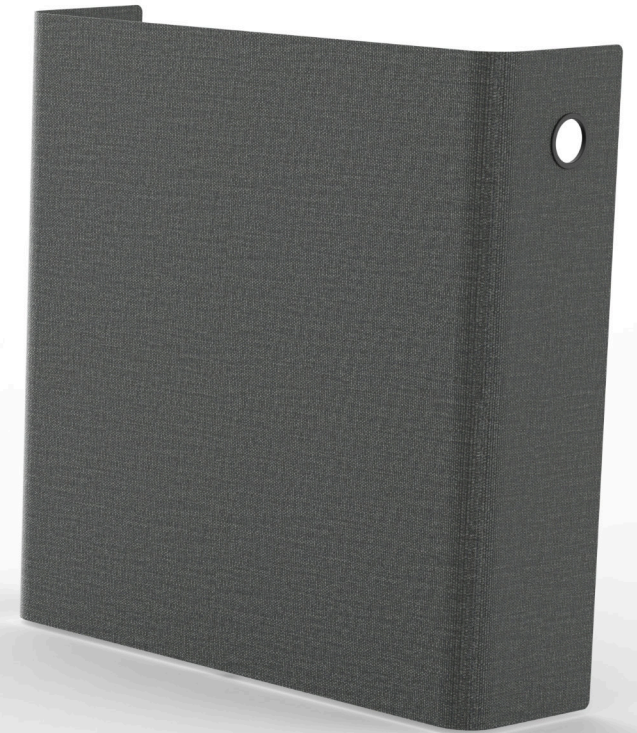

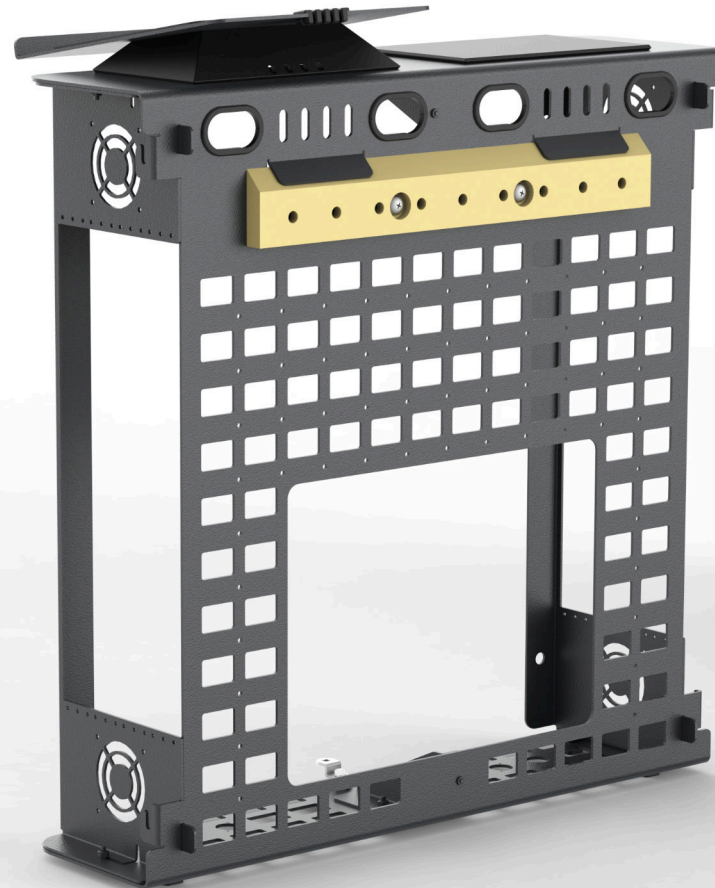

Locking front panel.

Ships conveniently by small package shipping services.

Scratch & fingerprint-resistant powdercoat finish.

Maharam textile-wrapped front panel.

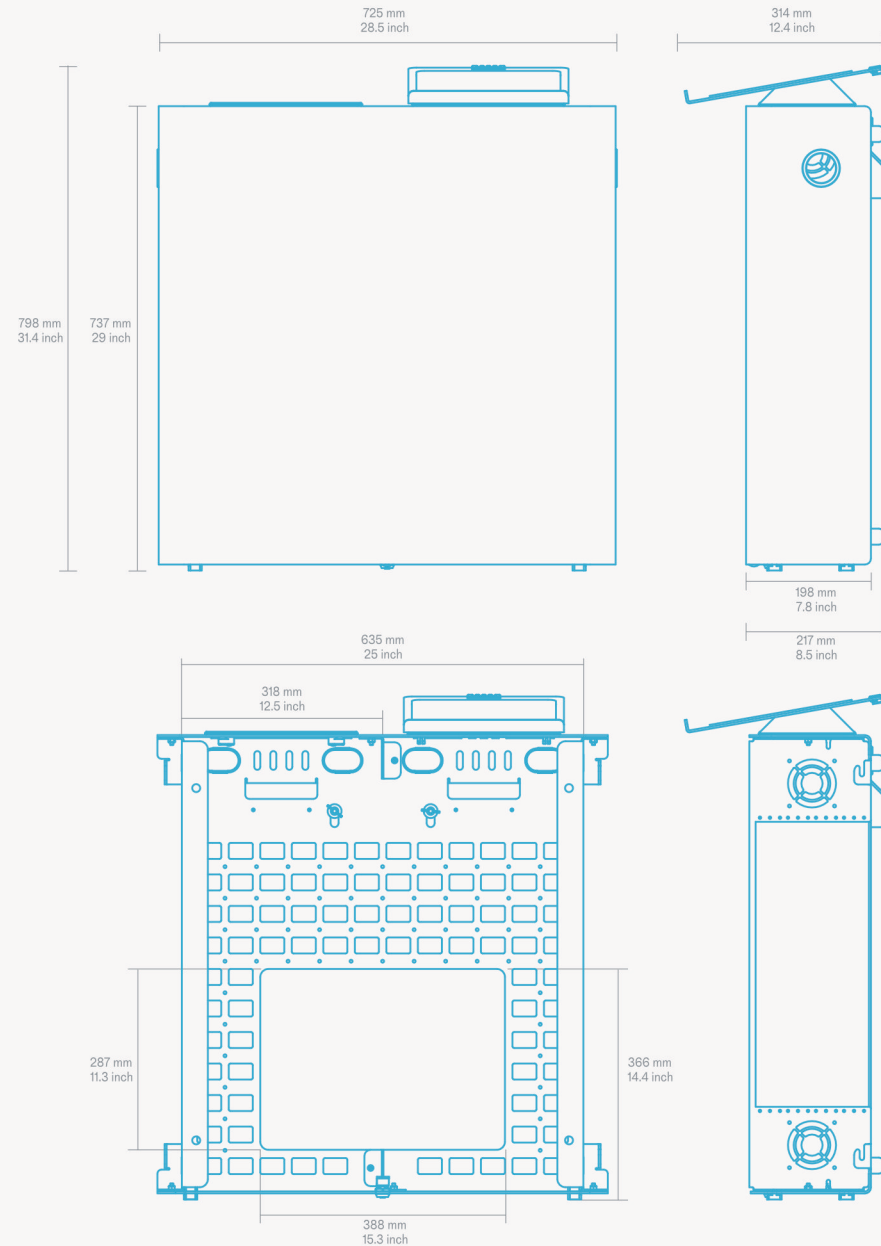

ADA compliant.
