Heckler Whiteboard Mount
for Logitech Scribe
H872

Heckler

The Logitech Scribe simplifies the process of seamlessly sharing whiteboard content during video meetings. Given the prevalence of video meetings in various work environments, it's important for your whiteboard cameras to be just as portable as the whiteboards themselves. This is where the Heckler Whiteboard Mount for Logitech Scribe comes in, allowing your team to collaborate with ease no matter where they are.

Features

Commercial grade steel structure.

Compatible with conventional and glass whiteboards and dry-erase boards.

Adjustable clamping mechanism adjusts to clamp to boards from 5mm to 25mm thick.

ADA compliant clearance when mounted to whiteboards with top edge at 73.5 inches AFF or higher.

Holds the Scribe firmly in place - perfect for mobile whiteboards on the move.

Toolless installation and removal.

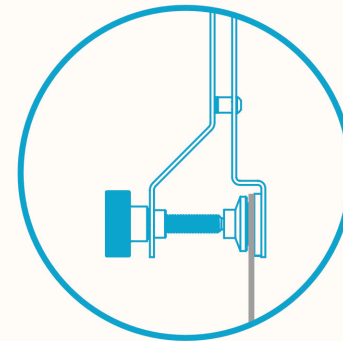

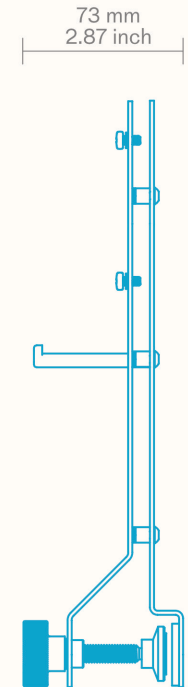

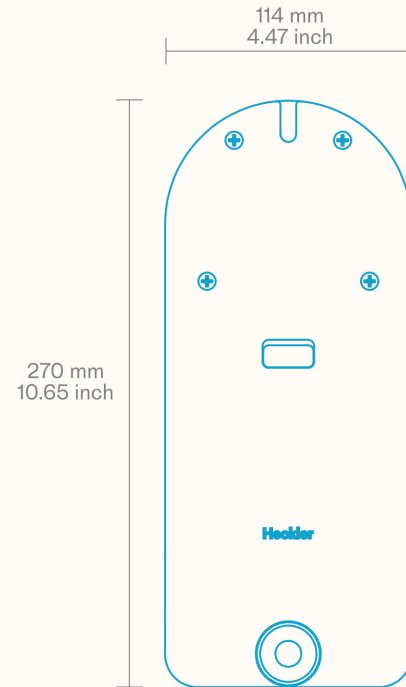

Neatly obscures and routes the camera's CAT5e cable out of sight of forward view.
