Keep your special assembly tool in a safe place. To purchase a replacement, please contact service@hecklerdesign.com.

Phillips Head
Screwdriver

Drill
(#17 drill bit or 5/32-inch drill bit)

Marker

1 Disassemble Front Mount

2 Remove Mounting Bracket From Front Bezel

3 Mark Hole Positions

Please select the mounting positions that work best for your mullion.

4 Drill Mounting Holes

You may use any screw you see fit for mounting the product to the mullion.

If you choose to use the self-tapping mounting screws provided, we recommend drilling a pilot hole with a #17 drill bit or a 5/32-inch drill bit.

5 Form Mounting Hole Threads

The mounting screws provided are thread-forming screws.

Ethernet Cable Hole

If your Ethernet cable has an RJ45 connector installed, drill a 5/8 inch hole in the position shown.

If you will install an RJ45 connector after the Ethernet cable is drawn through the mullion, a smaller hole can be created.

6 Remove Mounting Screws

7 Fasten Mounting Bracket to mullion

8 Charging Options
