Support Beautiful Collaboration

Heckler AV Wall Structure
H800

Heckler

Every meeting space must evolve and adapt over time. Rapidly advancing displays, camera systems, and component combined with the changing needs of a hybrid workforce demand an infrastructure that can support what you need to create today and be ready to adapt to what you need to implement tomorrow. Heckler AV Wall Structure is that infrastructure.

Features

Rigid steel construction.

Minimal wall damage.

Anchored to wall studs.

Supports the weight of the equipment with the floor, not the wall.

Easy and out-of-sight cable routing.

Integrated bubble level for convenient leveling.

Compatible with displays with horizontal VESA patterns of 300, 350, 400, 600, 800, and 900 mm.

Compatible with single displays up to 350 lbs.

Easy installation.

Ships conveniently by small package shipping services.

Scratch & fingerprint-resistant powdercoat finish.

Dual-display-ready with the addition of a Dual Display Kit accessory.

Enables a wide range of display installation heights.

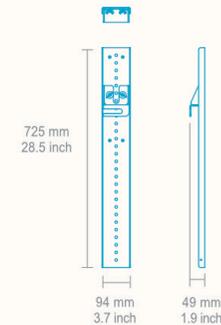

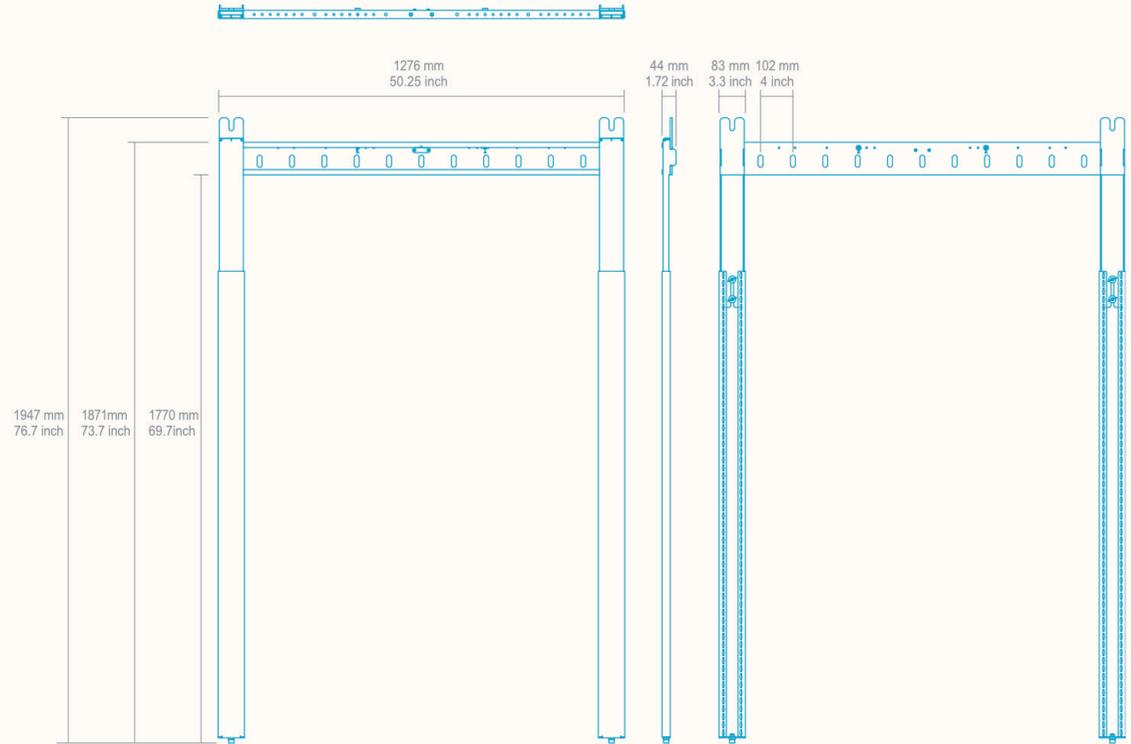

Integrated, tool-less accessory mounting system.
