

Heckler

# Made for Big Displays

H802 -Dual Display Kit for Heckler AV Wall

H803-Dual Display Kit XL for Heckler AV Wall

# Heckler

Upgrade Heckler AV Wall from a single display to dual displays, at any time, with Dual Display Kit.

## Features

Rigid steel construction.

Easy installation.

Easy adjustment system to perfectly level and align two displays.

Minimal wall damage.

Anchors to wall studs in two locations. Supports the weight of two displays with the floor, not the wall.

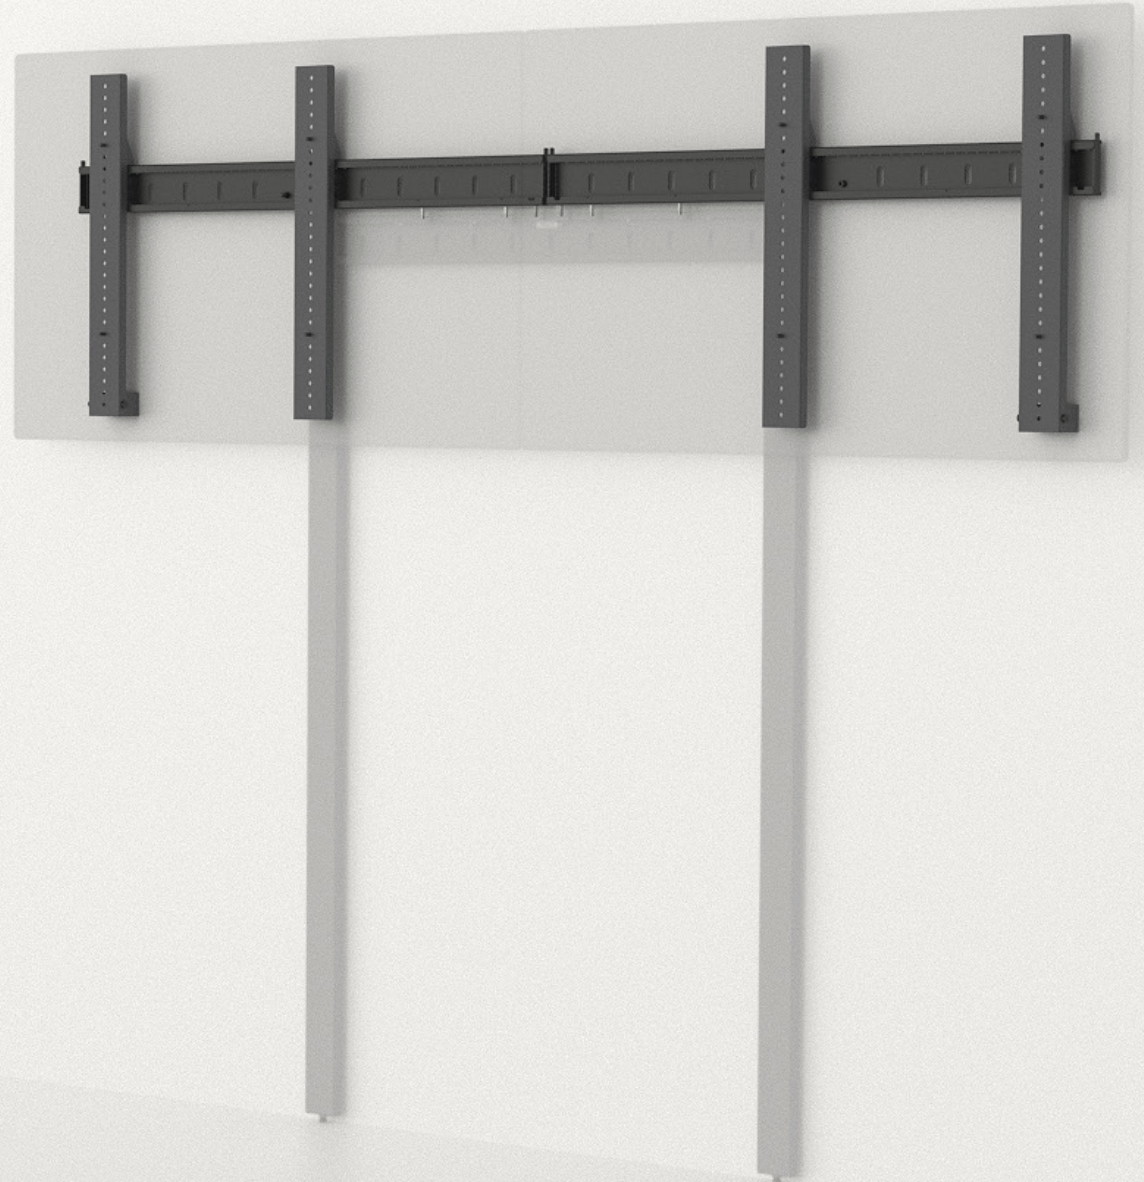

H802 supports displays from 65" to 75". H803 supports displays from 82" to 100".

Spacing created between the wall and displays enable access to the displays' HDMI connections.

Supports a wide range of display-height installations across a wide range of display sizes.

Displays are fixed securely to the structure to maintain safety during seismic events.

Ships conveniently by small package shipping services.
