Upgrade your Heckler Mobile Fleet rolling stands with our versatile Hub—mount and store all your favorite video meeting components for a seamless conferencing experience.

Features

Adjust the Hub's installation height in 50mm increments to achieve a comfortable eye-line during video meetings.

Shelftop features 1/4"-20 slots for securely fastening video bars.

Floating shelftop design neatly conceals cabling from all angles.

Compatible with columns supporting displays with mounting patterns up to VESA 1000.

Tool-free assembly and mounting for effortless setup.

Easily remove the shelftop without tools for quick access to the Hub's integrated storage tray.

Store small adapters, extra cables, and power strips inside the spacious storage tray.

Commercial-grade, fully welded construction ensures maximum durability.
